Our Brand

Our Mission

We serve communities by embracing the strengths and experiences of individuals and families, engaging them to achieve health and well-being.

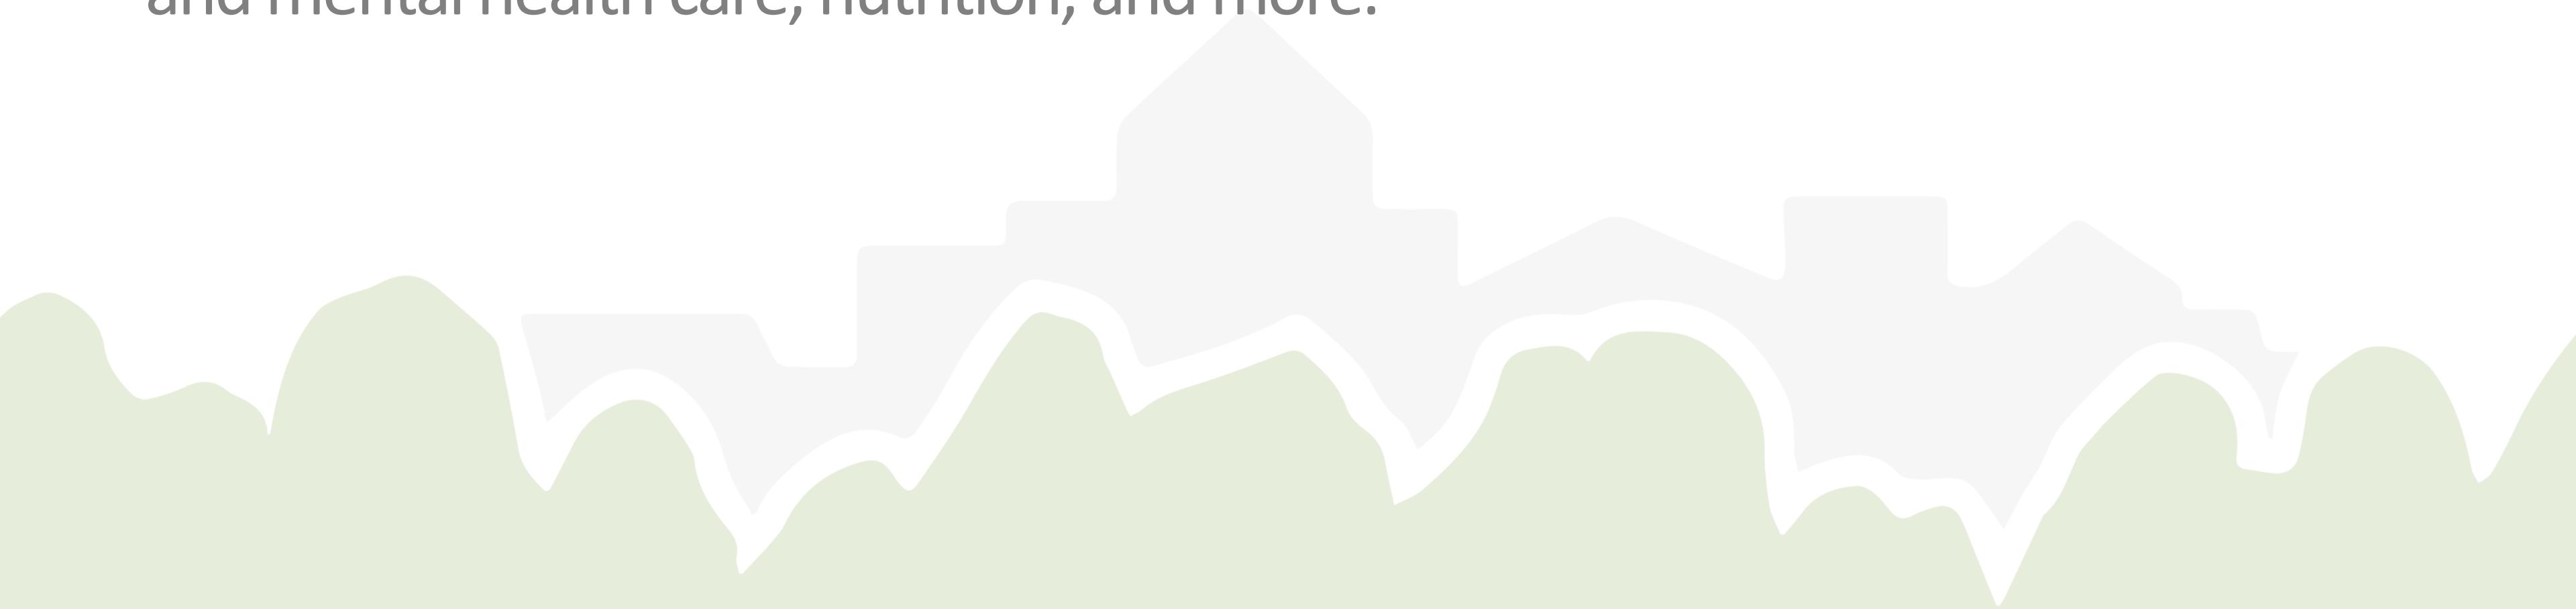

Building Healthy Communities

Our tagline is a phrase that represents our core organizational values. Everything that we do ties back to this phrase.

What do we do?

MHP Salud helps our community members access critical health resources and services, including affordable insurance, health and mental health care, nutrition, and more.

Supplemental messaging ...

While we serve anyone in need, our legacy is rooted in providing compassionate support to underserved Latino populations.

All of our work is grounded in our belief in the dignity and value of every individual. We believe in providing culturally appropriate and sensitive care and service in the language most comfortable and familiar to those we serve.

At the heart of all we do are promotores de salud – community health workers – who are caring, trained professionals from the communities they serve. Because community health workers deeply understand their own communities and cultures, they're able to build the trust that's vital to serve and support those in need.

There's a high demand for this work – and that's why collaboration is instrumental at MHP Salud. We've combined four decades of on-the-ground experience with in-house expertise to expand the support we can provide to communities throughout the country. Through high-quality training and technical assistance, we support and empower organizations and health centers across the nation to build and strengthen their own work with community health workers.

MHP Salud is the nonprofit organization you can trust with your health and well-being needs, from personal support to professional development. We're here for the community – and, together, we will continue to empower more individuals to achieve positive health and well-being. nd services, including affordable insurance, health and mental health care, nutrition, and more.

A Community Health Worker is a trusted member of the community who empowers their peers through education and connections to health and social resources.

Our Name

MHP Salud ...

What does “MHP” stand for?

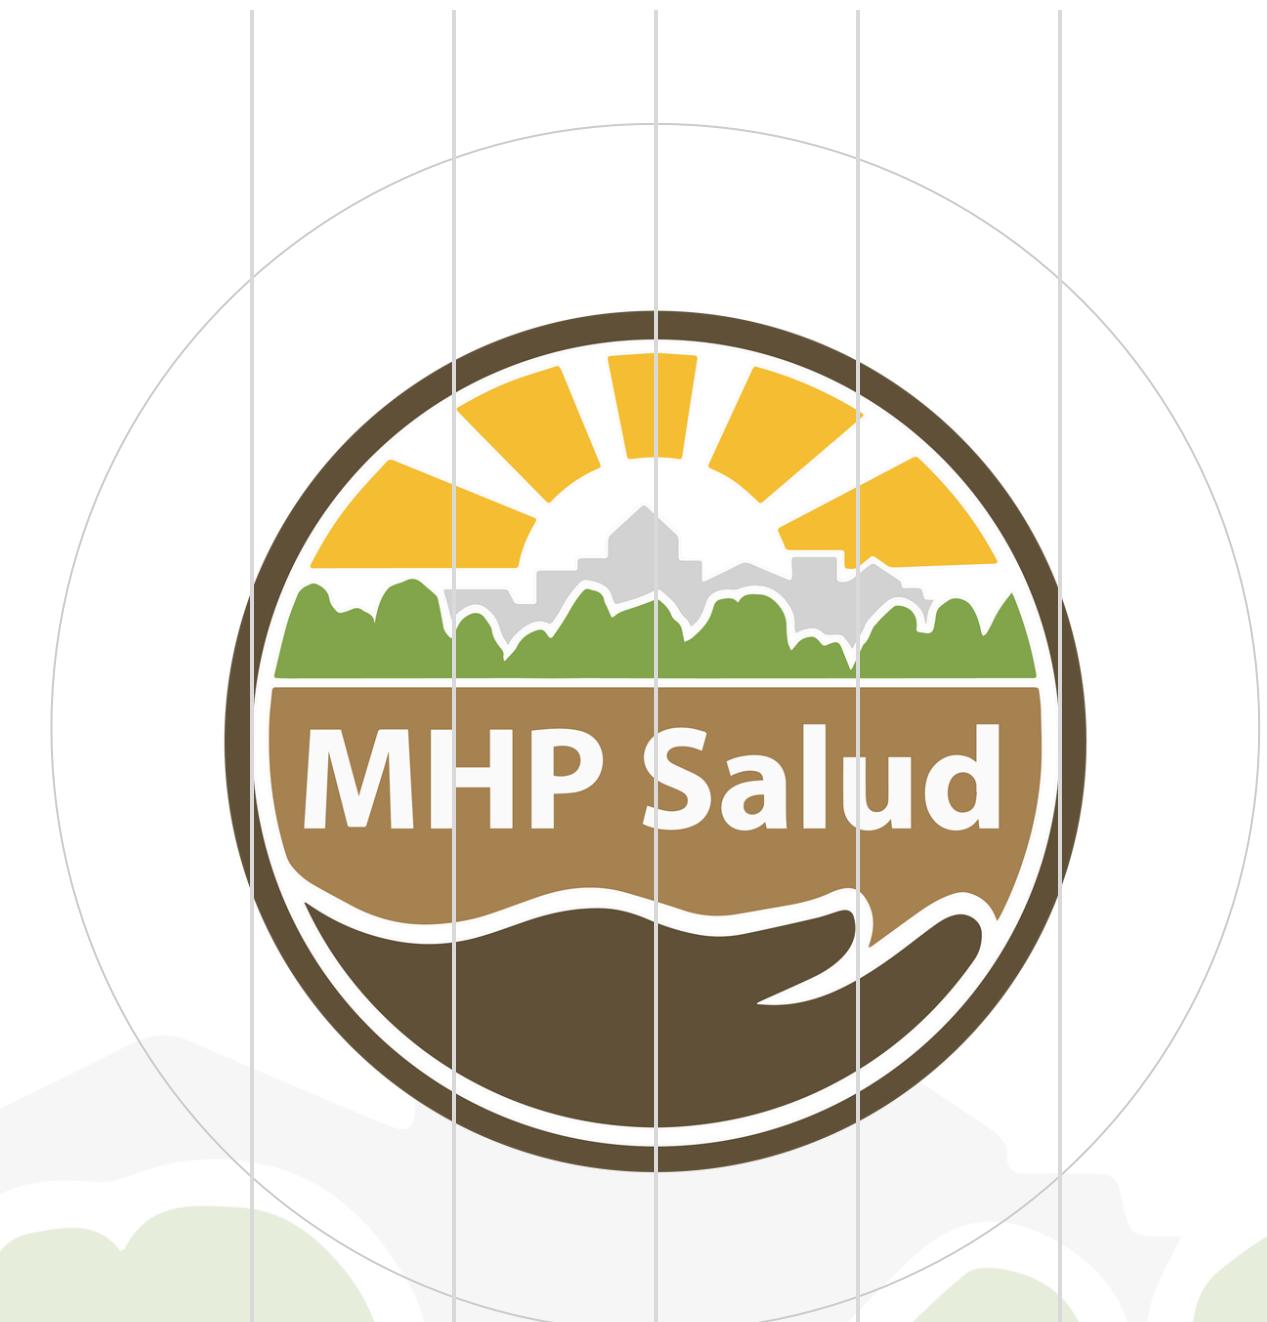

The beauty of our name is the homage it pays to our legacy, when our founders focused on “Migrant Health Promotion” during our first “Camp Aide” program.
